# Ilaria Torre

Associate professor

ilaria.torre@unige.it
+39 010 353 2818

## Education and training

**PhD in Communication at the Department of Computer Science University of Turin**
The Process of User Modeling Definition for Adaptive Hypermedia Systems

## Academic experience

**2021-Present**
**Head of the MSc in Digital Humanities – Interactive systems and digital media**
University of Genoa IT

**2019-Present**
**Associate Professor in Computer Science**
University of Genoa IT

**2009 - 2019**
**Assistant Professor in Computer Science**
University of Genoa IT

**2003 - 2009**
**Assistant Professor in Computer Science**
University of Turin IT

## Work experience

**2000 - 2003**
**CEO of the company TeT Grouplet S.A.S**
TeT Grouplet S.A.S
Advisory activity, Web Design and Development

## Research interests

My main research interests include intelligent user interfaces, adaptive systems, recommender systems, semantic technologies, and context-aware information environments. I apply methods from human-computer interaction (HCI) and artificial intelligence (AI) across various domains, including technology-enhanced learning, information systems, mobile cultural heritage guides, and privacy-aware information management.
