

# **Curriculum Vitae**

Cristiano Angelini - born in La Spezia on 06/23/1967

## Qualifications:

1986: High School Diploma in Science at the Scientific High School "G. Marconi" - Chiavari (Genoa).

1993: Degree in Biological Sciences at the University of Genoa discussing an experimental thesis entitled: "Role of homeoproteins in differentiation"

2004: Winner of the competitive examination for the coverage of n. 1 position of University Researcher at the University of Genoa, Faculty of Mathematical, Physical and Natural Sciences, scientific sector - disciplinary BIO / 06 COMPARATIVE ANATOMY AND CYTOLOGY - D.R. n. 345 of 11.03.2004, published in the Official Journal no. 24, IV special series, of 26.03.2004.

2007: Ph.D. in Neurochemistry and Neurobiology, discussing the thesis entitled: "Functionality and modulation of neurobiologically active molecules in models of different complexity

## **Scientific training:**

1990-1993: graduate student at the Immunobiology laboratory, directed by Prof. Giorgio Corte, of the Scientific Institute for the study of Tumors (IST) of Genoa.

1990: certificate of participation in the course "Applications of Molecular Engineering in Biology, Pharmacology and Medicine" organized by the Advanced School of Oncology and Biomedical Sciences of Genoa held in Santa Margherita Ligure.

1992: certificate of participation in the U.S.- Italy workshop on biotechnologies in medicine: "Gene transfer, cancer immunology and immunotherapy ".

1993-1994: intern at the Developmental Biology laboratory, directed by Prof. Carla Falugi, Institute of Comparative Anatomy of the University of Genoa.

1993-1994: notulist at the Institute of Comparative Anatomy, directed by Prof. A. Morescalchi, for the preparation of Xenopus Laevis preparations for Whole Mount and PCR investigation.

1994: certificate of participation in the "1st Advanced Course in Immunocytochemistry" held at the Institute of Normal Human

Anatomy of the Faculty of Medicine and Surgery "Federico II" in Naples.

1994-1995: collaborator at the laboratory of Developmental Biology, directed by Prof. Carla Falugi, of the Institute of Comparative Anatomy of the University of Genoa.

1996-1999: contract worker at the National Institute for Cancer Research (IST) in Genoa as part of the Primary Prevention project funded by the Liguria Region entitled: "Effects of pesticides on teratogenesis, mutagenesis and receptor-mediated carcinogenesis" carried out at the laboratory of Developmental Biology, directed by Prof. Carla Falugi, of the Institute of Comparative Anatomy of the University of Genoa.

1998: Appointment as Expert on the subject in Developmental Biology by unanimous decision of the Degree Course Council in Biological Sciences of the University of Genoa, meeting on 19/05/1998.

1998-2000: assignment received from Dr. Alessandro Cosimi, President of the Interfaculty Center of Marine Biology (CIBM) of Livorno, for "the preparation of biological tests of fertilization and embryonic development with sea urchins *P. lividus*".  
Research manager: Dr. David Pellegrini.  
Director: Dr. De Ranieri Stefano.

1999: Guest by invitation in the laboratory directed by Prof. Gustavo Egea of the Department of Cellular Biology and Pathological Anatomy, Faculty of Medicine, Universitat de Barcelona.

2000: member of the “Ad hoc Group for Toxicity Tests for Marine Sediments” as an expert in developmental biology and applications in marine ecotoxicology of the larval stages of the sea urchin *Paracentrotus lividus* within the UNICHIM project (see meeting minutes).

2000: scholarship from the Interuniversity Center for Biotechnology (CIB) for the cloning of the Ryanodine receptor in the sea urchin *Paracentrotus lividus*. The project was carried out at the Laboratory of Genetics and Molecular Biology of the Federico II University of Naples, directed by Prof. Giuseppe Geraci.

2000: teaching assistant at the “Advanced Workshop Sea Urchin Aquaculture” organized by the International Marine Center (IMC) of Oristano.

2001: Consultant at the National Institute for Cancer Research (IST) in Genoa for a project on “Evaluation of drugs that inhibit the enzyme farnesyl-transferase”. Term of assignment: 2 months.

Research manager: Dr. Russo Patrizia

Director: Prof. Silvio Parodi

2001: Certificate of participation in the Theoretical and Practical Course entitled “Application aspects of gene transfer” held at Villa Gualino and organized by the Foundation for Biotechnology in Turin.

2001: Appointment as contract professor for the teaching of an eight-hour teaching module (art.32) entitled “Molecular determination of embryonic development and neurogenesis” within the program of the Developmental Biology Course for the Degree Course in Biological Sciences.

Minutes of the Council of the Degree Course in Biological Sciences. of 13/12/2001.

2002: Head of the project “Functional analysis of Notch and Wnt pathways in determining carcinogenesis processes” funded by the University of Genoa as part of the project funding program for individuals and/or young researchers.

2002-2003: Research grant holder at the University of Calabria within the MeMoBiomar project funded by the Ministry of Merchant Marine.

2003: Scholarship winner for the PhD in Experimental, Molecular and Clinical Biology and Medicine.-Address: Neurochemistry and Neurobiology.

Coordinator: Prof. Mauro Vallarino

2003-2004: Contractor within the project funded by the European Community QLK4-CT-2002-02264-SENS-PESTI carried out at the Laboratory of Experimental Embryology and Cytotoxicology. Project Coordinator: Prof. Carla Falugi.

2004: Appointment of Contract Professor for the carrying out of a teaching module (art.32) lasting 40 (forty) hours entitled “Experimental Embryology” within the fifth year of the Degree Course in Biological Sciences.

2004: Winner of the competitive examination for the coverage of n. 1 position of University Researcher at the University of Genoa, Faculty of Mathematical, Physical and Natural Sciences, scientific-disciplinary sector BIO/06 COMPARATIVE ANATOMY AND CYTOLOGY - D.R. n. 345 of 11.03.2004, published in the Official Journal n. 24, IV special series, of 26.03.2004.

2006: Permanent researcher at the Department of Biology (Scientific-disciplinary area BIO/06), Faculty of Mathematics, Physics and Natural Sciences of the University of Genoa.

2007: Ph.D. in Neurochemistry and Neurobiology discussing the thesis entitled: “Functionality and modulation of neurobiologically active molecules in models of different complexity”

2018: Permanent researcher at the Department of Educational Science (DISFOR) for the scientific-disciplinary area BIO/06 of the University of Genoa

### **2004-2022: Teacher of the following courses**

Experimental Embryology - Degree Course in Biological Sciences - University of Genoa

Molecular and Cellular Technologies Module - Degree Course in Biological Sciences - University of Genoa

Developmental Biology Module and Laboratory and Laboratory within the Course in Cellular and Developmental Biology\_ Three-Year Degree Course in Biotechnology - University of Genoa

Cellular Biology Module within the Course in Cellular and Developmental Biology - Master's Degree Course in Biological Sciences

Developmental Biology II Course - Master's Degree - Degree Course in Biotechnology

Cellular Biology and Developmental Biology I Course (Developmental Biology Module) - Three-Year Degree in Biotechnology

Cellular Biology and Developmental Biology Course (Cellular Biology Module) - Master's Degree in Biological Sciences

Courses in Cellular Biology and Developmental Biology Development II (Developmental Biology Module II) - Master's Degree in Biological Sciences

Comparative Anatomy Laboratories - Bachelor's Degree in Biological Sciences

Histology Laboratories - Bachelor's Degree in Biological Sciences

Histology and Cytology Laboratory - Bachelor's Degree in Biological Sciences

Teaching of eaarth and life sciences - Single-Cycle Degree in Primary Education Sciences (Department of Education Sciences) - University of Genoa

Biology Fundamentals and Laboratories - Single-Cycle Degree in Primary Education Sciences (Department of Education Sciences) - University of Genoa

### National and International conferences:

- 1) M. T. Corsetti, A. Daga, P. Briata, L. Sanseverino, **C. Angelini**, G. Palmisano, S. Guazzi, E. Boncinelli, G. Corte. "Production of three functional recombinant human homeoproteins." (1991) *European Journal of Cell Biology*, Supplement **35** (vol. 55), **64**.
- 2) F. Morescalchi, **C. Angelini**, G. Cimoli, C. Falugi. "Eye development is affected by cholinergic molecules". (1994) *Cell Biology International*, **18**, n° 5, 486.
- 3) **C. Angelini**, C. Falugi, G. Cimoli: "Perturbed cell signalling affects factors controlling CNS growth during chick neurogenesis". (1994) *Cell Biology International*, **18**, n° 5, 531.
- 4) G. Cimoli, **C. Angelini**, C. Falugi. "Chick limb development is affected by alteration of cholinergic receptors state". (1994) *Cell Biology Intrrnational*, **18**, n°5, 512.
- 5) Morescalchi F., Falugi C., Cimoli G., **Angelini C.**, Traverso C.E. "Cholinergic molecules control eye early development" (1995) *Inv.Op.Vis Sci., Abstract Book, Annual Meeting*

- 6) Coniglio L., Morescalchi F., **Angelini C.**, Leonardini M., Cimoli G., Falugi C. "Cholinomimetic substances may affect inductive processes in vertebrates." (1995) *European Journal of Histochemistry*, **39**, sup. 1 pg. 49.
- 7) **Angelini C.**, Morescalchi F., Coniglio L., Leonardini M., Cimoli G., Falugi C. "Effects of some neuroactive compounds on vertebrate neurogenesis and early development". (1995) Abstract for the *Congress of the European Developmental Biology Organization, EDBC*, Tolouse. pg 70.
- 8) **Angelini C.**, Cimoli G., Coniglio L., Costa M., Morescalchi F., Falugi C., Corte G., "Espressione di EMX-1 nello sviluppo embrionale di vertebrati ed invertebrati: possibile interazione cellula-cellula e cellula-ambiente" (1995) *Atti XLI Congresso ABCD*. Sez. 1.2
- 9) Morescalchi F., **Angelini C.**, Coniglio L., Cimoli G., Falugi C. "Effetti di molecole colinomimetiche sullo sviluppo dell'encefalo e dell'occhio" (1996) *XLII GEI Animal Biology*, pg. 86.
- 10) **C. Angelini**, G. Cimoli, G. Palmisano, F. Morescalchi, L. Coniglio, M. Costa, C. Falugi. "Possible interaction between cholinergic molecules and genes expression during chick eye development" (1996) *9<sup>th</sup> International Conference of the International Society of Differentiation (ISD)* n° **242**, pg. 148
- 11) Morescalchi F., Gandolfo E., **Angelini C.**, Coniglio L., Falugi C. "Effetto dei farmaci colinergici sullo sviluppo dell'occhio in fase embrionale" (1996) *S.O.I. 76<sup>o</sup> Congresso Nazionale*, pg. 31.
- 12) Coniglio L., Morale A., **Angelini C.**, Cimoli G., Russo P., Falugi C. "Biological effects of neurotoxic insecticides on sea

urchin (*Paracentrotus lividus*) development." (1997) *International symposium on intergrated ecotoxicology from molecules/organism to ecosystems*, pg. 72.

13) Delmonte M. U., Politi H., Trielli F., **Angelini C.**, Falugi C. "Localization of cholinergic-like molecules in Paramecium primaurelia cells, and their possible role in conjugation" (1997) *10<sup>th</sup> International Congress of Protozoology*, pg. 70.

14) Baccetti B., Reineri T., Coniglio L., **Angelini C.**, Morale a., Pisano E., Falugi C. "Structure and Ultrastructure of mature sperms of Antarctic and Subantarctic fish" (1997) European Science Fondation Network Fishes of the Antarctic Ocean. Final Conference. "Evolution of the Antarctic Ichthyofauna".

15) Falugi C., Iannone R., Morale A., **Angelini C.**, Coniglio L., Corte G. "Inhibition of acetylcholinesterase activity affects primary mesenchyme migration and OTX 2-like protein expression of the sea urchin, *Paracentrotus lividus*." (1997) Abstract for the *Developmental Biology of the Sea Urchin XI, Woods Hole*.

16) Cimoli G., Arzani D., Vikanskaia F., **Angelini C.**, Falugi C., Parodi S., Russo P. "Valutazione degli effetti cellulari e molecolari di un fitofarmaco neurotossico di classe IIa: Basudin." (1997) In *Agribio '97, Biotecnologia applicata al settore vegetal: uno strumento per la soluzione di problemi regionali*.

17) Delmonte Corrado M. U., Politi H., **Angelini C.**, Trielli F., Falugi C. "Individuazione elettroforetica dell'attività di Acetilcolinesterasi e sviluppo della competenza sessuale i *Paramecium primaurelia* (Protista, Ciliophora)." (1997) *58<sup>o</sup> Congresso Nazionale U.Z.I.*

18) Morale A., Coniglio L, **Angelini C.**, Iannone R., Corte G., Falugi C.

”Inhibition of acetylcholinesterase activity affects primary mesenchyme migration and morphogenesis in sea urchin” (1997) *Anim. Biology*

19) Falugi C., **Angelini C.**, Cimoli G., Iannone R., Coniglio L., Corte G.”Effetti dell’inibizione dell’Acetilcolinesterasi sulla distribuzione intracellulare di proteine immunologicamente correlate ad OTX 2” (1998). Comunicazione orale, 44° G.E.I., *Animal Biology*

20) **Angelini C.**, Cimoli G., Iannone R., Coniglio L., Corte G., Falugi C. “Cholinergic molecules may affect intracellular distribution of OTX 2-like molecules during early development of the sea urchin, *Paracentrotus lividus*.” (1998) *The International Journal of Developmental Biology*, (SFBD), **42**, n° 6, 18 S

21) Coniglio L., **Angelini C.**, Pedrotti M.L., Diaspro A., Robello M., Falugi C. “Onset of a Cholinergic-like system during neurogenesis of the sea urchin, *Paracentrotus lividus*.” (1998) *Fifth European Conference of Echinoderms*.

22) **Angelini C.** “Cholinergic molecules may affect intracellular distribution of OTX2 regulatory protein during early development of the sea urchin, *Paracentrotus lividus*”  
*IBS Day on sea urchin development*.(1998). Comunicazione orale.14<sup>th</sup> September Palermo.

23) Falugi C., Coniglio L., **Angelini C.**, Prestipino G., Harrison. P., Whittaker M. “Ruolo dei recettori muscarinici presenti nelle uova di riccio di mare nel rilascio degli ioni Ca<sup>++</sup>”. (1998) *XIV Congresso Società Italiana Biofisica Pura ed Applicata (SIBPA)*

- 24) Laganà I., Chessa M.G., **Angelini C.**, Politi H., Delmonte Corrado M.U. "Indagine elettroforetica delle proteine ed analisi dei glicoconiugati della parete cistica di *Colpoda cucullus*" (1998) *59° Congresso Nazionale U.Z.I.*
- 25) Laganà I., Chessa M.G., Rosati G., Politi H., **Angelini C.**, Delmonte Corrado M.U. "Cytochemical and Electrophoretic Study of Resting Cyst Wall in *Colpoda variabilis*" (1998) *Journal of Eukaryotic Microbiology* 19<sup>th</sup> Annual Meeting, Italian Section Society of Protozoologist
- 26) Falugi C., Pernigotti R. and **Angelini C.** "Presence of molecules immunologically related to muscarinic Acetylcholine receptors in the sea urchin, *Paracentrotus lividus*, eggs and zygote" (1999) Congress of the *Developmental Biology of the sea urchin XII*. Woods Hole, MA, USA.
- 27) **Angelini C.**, Cimoli G., Iannone R., Corte G., Falugi C. "Association between OTX2-like molecules and  $\square$ -tubulin during early development of the sea urchin, *Paracentrotus lividus*" (1999) Congress of the *Developmental Biology of the sea urchin XII*. Woods Hole, MA, USA.
