2020 - ONGOING

#### **New Economic Regulation for Transport in Case of Emergency Events**

DG Reform

248000 EUR - Principal investigator

The aim of the project is to identify a set of actions and procedures to be implemented in emergency situations concerning the transport and logistics system. The intention is to use Genoa as a case study to define a set of actions to be implemented in case situations such as the fall of the Morandi bridge should occur again. The project is configured as technical

assistance to the Municipality of Genoa.
