Education and training

1997

Ph. D. in Models Methods and Tools for Electronic and Electromagnetic Systems

University of Genoa

1990

'Laurea' degree in Electronic Engineering

Summa cum laude

University of Genoa

Academic experience

2016 - ONGOING

Full Professor

University of Genoa

2016 - 2022

Coordinator of the Bachelor of Science Course in Electronic Engineering

University of Genoa

Language skills

English

Proficient

University of

Cambridge

Certificate in

Advanced English

Research interests

The main research interests are in electromagnetic theory, electromagnetic scattering, computational electromagnetics and bioelectromagnetic interactions in the near-infrared and visible bands.
