Education and training

PhD in Philosophy (Philosophy of Science)
University of Genova - Genova - IT

Academic experience

2011 - ONGOING
Full professor
University of Genova - Genova - IT

Language skills

English

Teaching activity

In the past years I held courses of logic (at the Universities of Salerno and of Genova, and at Vita-Salute San Raffele University of Milan), of philosophy of language (at the University of Salerno) and of artificial intelligence (at the Vita-Salute San Raffele University of Milan). I currently teach logic and philosophy of cognitive science at the University of Genoa.

Postgraduate research and teaching activity

PhD committees membership

I am part of the board of teachers and I was a member of the steering committee of the FINO PhD program (Northwestern Italian Philosophy Consortium).

Research interests

My areas of competence are cognitive science and of the philosophy of cognitive science. My research interests include knowledge representation in computational models, concept representation, the role of computation in cognitive science, reasoning.
