

Roberto Sacile

Full Professor

✉ roberto.sacile@unige.it

☎ +39 0103532804

Education and training

1990

Laurea in Electronic Engineering

University of Genova

Engineer

1994

PhD

Academic experience

2000 - ONGOING

Professor and researcher

Università di Genova

Research interests

Specialization

(i) main field

Control, optimisation and systems engineering for decision making applied to production, logistics, and transport systems with special emphasis to the quantification of their sustainability, safety, and reliability.

(ii) other fields

GIS (Geographic Information Systems) and DSS (Decision Support Systems) applications to sustainable systems, Risk management, Infomobility, Multiagent Systems, Technologies and methodologies for production and logistics tracking.

(iii) current research interest

System of systems quantitative approaches to control and to model sustainability, safety, and reliability
