Education and training

1998

PhD in Computer Science

Università di Genova - Genova - IT

1993

MSc in Information Science

Università di Genova - Genova - IT

Academic experience

2005 - ONGOING

Associate Professor

Università di Genova - Genova - IT

2001 - 2005

Associate Professor

Università di Genova - Genova - IT

1996 - 2001

Assistant Professor

Università di Genova - Genova - IT

Research interests

My research is carried out in the field of data management, with particular reference to issues related to the variety and heterogeneity of data, to approximate recovery and to integration and evolution of data sources. In my research activity, I mainly focused on the management of semi-structured data, with data models based on graphs and documents, and on spatio-temporal data.
