

David Giofre'

Associate professor

✉ david.giofre@unige.it

Education and training

2013

Ph.D.

University of Padua - Padua - IT

Academic experience

2013 - 2016

Senior Lecturer

Liverpool John Moores University - Liverpool - GB

Teaching and research

Research interests

Associate Professor of General Psychology at the University of Genoa, Italy. His research focuses on intelligence, working memory, and neurodevelopmental disorders. He has collaborated with several international institutions (e.g., Cambridge, Missouri, Joetsu) and authored over 90 peer-reviewed articles, mostly published in top-tier and international journals. He has received funding from PRIN, Fulbright, and JSPS. He is currently Editor-in-Chief of the "Approaches to Improving Intelligence" section of the Journal of Intelligence, Editor for PlosOne and Frontiers in Cognition, and serves on the editorial boards of several international journals. H-index: 27 (Scopus), 38 (Google Scholar).
