Education and training

2006

Bachelors Degree in Industrial Engineering and Management

Methodologies for the identification of optimal regions in stochastic and event-driven simulation of complex industrial plants - 110/110 cum laude
University of Genoa - Genoa - IT

2008

Master's Degree in Industrial Engineering and Management

Study and implementation of mathematical models in banking management methodologies for pricing financial instruments - 110/110 cum laude
University of Genoa - Genoa - IT

2009

Chartered Engineer

Order of Engineers - Savona - IT

2013

PhD in Engineering Mathematics

Study and implementation of MSPE technique for a reliable control of convergence in stochastic models for option pricing
University of Genoa - Genoa - IT

2015

CIIA - Certified International Investment Analyst

AIAF Financial School - Milan - IT

2016

Banking and Financial Diploma

ABI - Rome - IT

2017

CESGA - Certified Environmental Social and Governance Analyst

EFFAS - European Federation of Financial Analysts Societies - Milan - IT

2019

CIWM - Certified International Wealth Manager

AIAF Financial School - Milan - IT

2021

Master in Risk Compliance and Internal Audit

European School of Banking Management - Milan - IT

2021

PhD in Economics

Mathematical modeling in Quantitative Finance and Computational Economics

University of Genoa - Genoa - IT

2022

MBA - Executive Master in Business Administration

Essay on Banking Credit Management and Measurement - 10/10

European School of Banking Management - Milan - IT

Academic experience

2022 - ONGOING

Adjunct Professor

University of Genoa - Genoa - IT

Course Risk Management Techniques

2019 - ONGOING

Adjunct Professor

University of Genoa - Genoa - IT

Course 'Software R'

2018 - 2019

Adjunct Professor

University of Genoa - Genoa - IT

Course 'Financial Risk Management'

2017 - 2019

Adjunct Professor

University of Genoa - Genoa - IT

Course 'Matlab'

Work experience

2009 - ONGOING

Financial Engineer

Banca CARIGE (Gruppo BPER) - Genova - IT

Language skills

English

Independent
First Certificate

Research interests

Mathematical models applied to the valuation of structured financial products and their risk measures.

Research Fields: Mathematical models for Economists and Banking management.
