Proficiency

Teaching activity

I am currently teaching cyberphysical systems and entrepreneurship at the MSc course in Electronic Engineering (1st and 2nd year, respectively).

Postgraduate research and teaching activity

Supervision of PhD students, residents and post-doctoral fellows

I have supervised several PhD and scholarship students, since 2005.

PhD committees membership

I am member of the Teaching Committee of the Interactive Cognitive Environment PhD Course.

Research interests

My main research interests concern infomobility systems, human-computer interaction, cyber-physical system engineering, artificial intelligence and technology-enhanced learning.

Grants

2017 - ONGOING

L3Pilot

EU

Participant

Responsible of the WP for the development of the Database for managing data from automatic drive vehicles

Editorial activity

I am in the editorial board of ACM Computers and Cultural Heritage, of Hindawi Advances in Human-Computer Interaction and of the Int.l Journal of Serious Games, of which he has been one of the founders.

I have revised several project proposals for the Italian Ministry of the University and Research (MIUR).
