Other professional experience

- Collaboration with the reference association for respiratory rehabilitation (ARIR) both for internal projects, organization of conferences or participation in training events as a teacher and in the drafting of a text.
- Supervisor in the 2016/2017 academic year for the Master's thesis in Rehabilitation Sciences of Health Professions entitled "The evaluation and organizational-managerial improvement of the respiratory rehabilitation clinic of the IRCCS San Martino-IST: from an observational database to the creation of PDTA and service satisfaction questionnaire"
- Participation as author in the drafting of a chapter of the text entitled "Physical exercise reconditioning of patients with respiratory pathology" Masson edition July 2014.
- I concluded a research protocol on lower limb rehabilitation in COPD, at a Department of the S. Martino Hospital in Genoa (DIMI), started in September 2004 as a three-year degree thesis with Prof. Crimi Emanuele as supervisor. Since then, the collaboration on the basis of projects with the DIMI has continued at the Respiratory Physiopathology Operating Unit of Prof. Brusasco Vito
- Since January 2010 I have followed the rehabilitation for the Telethon project on CMT in collaboration with the DIMI of Genoa.
- Since 2016 Internship Guide for the Three-Year Degree Course in Physiotherapy
