03/2022-06/2022 European PhD Research

A research fellowship abroad at the Vasa Museum, Stockholm, Sweden, dedicated to the conservation and valorization of the royal warship *Vasa* (1628), the only example to have survived almost entirely to the present day. The research fellowship allowed for direct study of the ship, honing technical skills in its study and analysis. The fellowship was conducted as part of the Centro del Mare's PhD program, Architecture and Design curriculum, and led to the award of the European PhD Label.
